LED LIGHTING ICON GUIDE

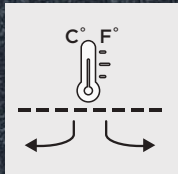

These icons represent the main features for the LED lighting products.
Please reference these icons and their meanings as you explore our LED lighting sections.

Multi-unit synchronization in simultaneous or alternating flash modes

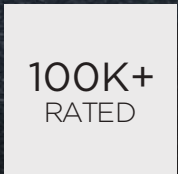

Non-volatile memory recalls last flash pattern used at power up

Aluminum base for heat dissipation

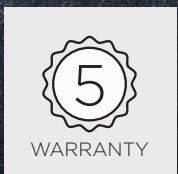

Weatherproof & vibration resistant

LEDs rated to 100,000+ hours of operation

Reverse polarity protection

5 year, no-hassle warranty

Flood / scene lighting capable

ROOFTOP LIGHTBARS

TEMPEST™ V2

LOW PROFILE
AFFORDABLE
MULTI-COLOR
ULTRA-BRIGHT
FULLY PROGRAMMABLE

FULLY PROGRAMMABLE, MULTI-COLOR LED ROOFTOP LIGHTBAR

GENERAL FEATURES

- Fully programmable via laptop / PC.
- External CAN module
- Low profile, streamlined design maximizes fuel economy while also reducing wind noise
- New Facet-X Optics produce brilliant, seamless output & impressive off-axis output
- Multi-color lightheads and new PC programming features promote adaptability to most needs
- Full and half size inboard lightheads ensure contiguous population in all lengths
- Dual dome design utilizes just two lenses w/ a centrally located silicon coupler, easing field maintenance / lighthead reconfiguration
- UV infused, hard-coated lenses are ultra-resistant to yellowing / cracking caused by harsh weather / road conditions
- Rigid aluminum base ensures a sturdy mount, while also aiding in optimum heat dissipation. Top aluminum plate protects interior components from the negative effects of the sun
- Available lengths: 48" & 54"

FEATURES

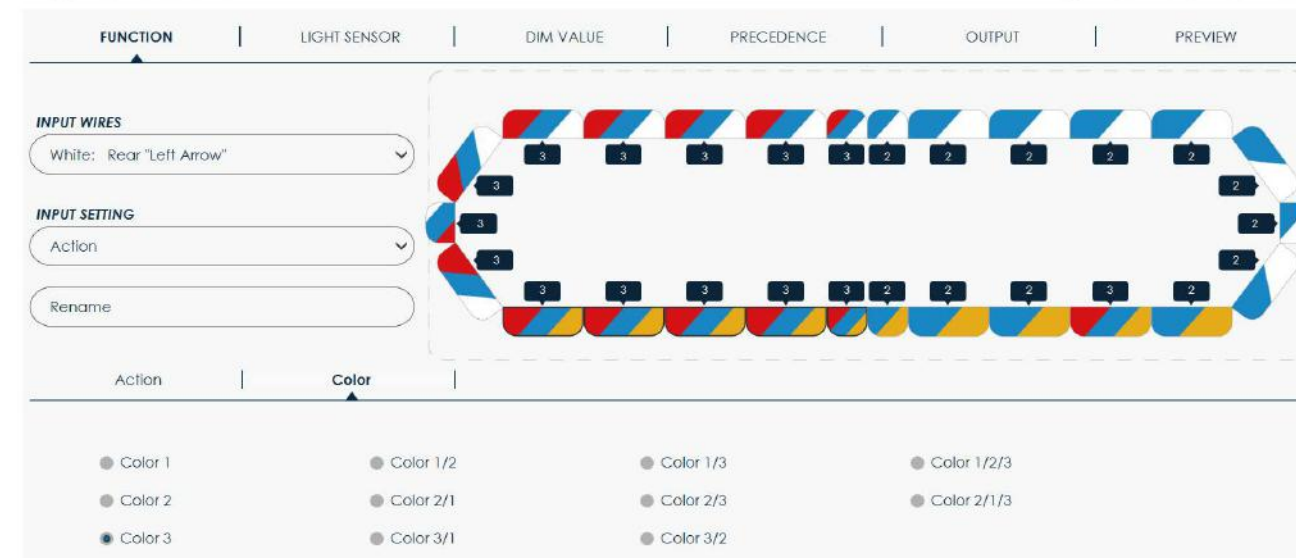

The newest generation Tempest is **FULLY PROGRAMMABLE** via user-friendly software on any PC. User defined inputs (16) combined with multi-color lighthead options promote adaptability to almost any scenario. User defined settings can be saved and uploaded to other units' CAN modules, saving valuable installation time.

C5 SERIES TORRENT

Flood active

TORRENT

DUAL COLOR TORRENT (C5)

GENERAL FEATURES

- 3 progressive warning modes
- UV infused, hard-coated lenses are ultra-resistant to yellowing / cracking caused by harsh weather / road conditions
- Utilize single or dual color modules to achieve maximum functionality
- Inboard modules are available in single color with 6 LEDs, or dual color with 12 Interleaved (6x6)
- Corner modules are available in single color with 12 LEDs, or dual color with 12 Interleaved (6x6)
- Dual color configured lightbars provide added usage options and enhance standard features
 - Utilize dual color in the rear for conversion to amber in traffic control mode
 - Utilize dual color in the front for flood / scene lighting
 - Keep standard take-down style heads for true TD / spot beam + flood / scene
 - Delete standard style TD and gain more warning power + FULL front flood (no spot beam)
- 360° dual color, change bar color on the fly or alternate between colors via user programmed color mode selection
- LED takedowns can be positioned anywhere in the lightbar – up to 4, front or rear facing
- 3 LED alley lights (optional)
- Available sizes: 44", 49", 54", 59"

STANDARD FEATURES

- Directional / traffic control patterns, front / rear cutoff, manual low power mode, flashing takedowns & alleys, flash pattern change, program mode for user defined flash patterns

L SERIES TORRENT: Single color light modules - Includes all standard features listed above.

Available Lengths: 40", 44", 49", 54" 59"

A pillar in the emergency vehicle marketplace, the Torrent continues to be a reliable & affordable option.

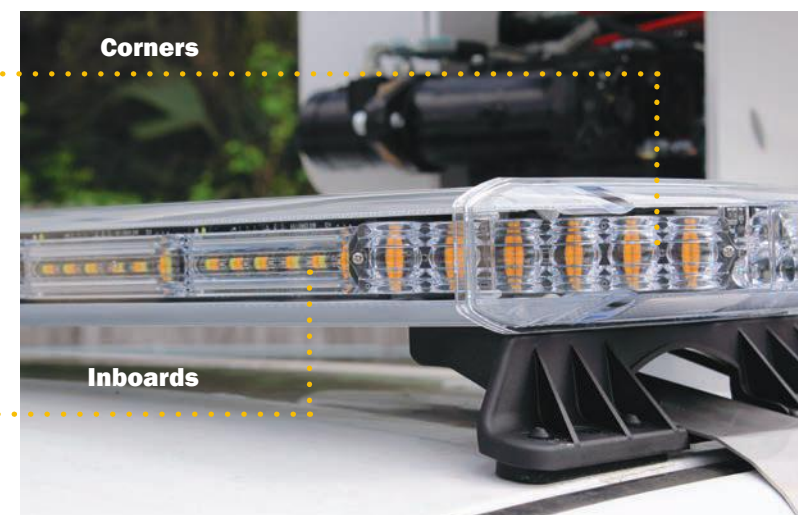

BRAKE / TAIL / TURN

GENERAL FEATURES

- Two rear-facing light modules perform DRL, brake and turn signal functions
- Traffic control patterns included standard
- Upgrade and adapt to border state's color codes via dual color software
- Optional 6 LED work lights / takedowns (up to 4, front or rear facing)
- 3 LED alley lights (optional)
- Users choice flash modes: (whole bar, split, outside-in, criss-cross, outside-in)
- User selectable flash patterns
- Available sizes: 54", 59"

Technical specifications vary by model. Contact your Brooking representative for more information.

Corners

Inboards

COMMON FEATURES

- Low-profile design
- 2nd generation linear optics improve output and aesthetics
- 2nd generation software provides additional color change options (full front flood)
- Extruded aluminum chassis provides strength / rigidity, and dissipates heat
- UV infused, hard-coated lenses are ultra-resistant to yellowing / cracking caused by harsh weather / road conditions
- Traffic control patterns included at no additional charge
- Available LED colors: Amber, Blue, Green, Red, White
- Mounting options: Fiberglass Reinforced Plastic (FRP) with vehicle specific straps, powder coated steel permanent mount (narrow or wide surface)

FEATURES

LEGION & TORRENT MOUNTING BRACKETS

LMBB - Fiberglass Reinforced Plastic

TMBG - Flat Wide Permanent Mount Powder Coated Steel

TMBF - Flat Narrow Surface Permanent Mount Powder Coated Steel

LEGION

LIGHTBAR

An economical, budget-friendly option rife with features

LE SERIES LEGION

GENERAL FEATURES

- 3 progressive warning modes
- LED takedown and alley lights (optional)
- Standard features: directional / traffic control patterns, front / rear cutoff, manual low power mode, flashing takedowns & alleys, flash pattern change, program mode for user defined flash patterns
- Available LED colors: Amber, Blue, Red, White
- Available sizes: 43", 49", 54", 60"

STANDARD FEATURES

- Directional / traffic control patterns, front / rear cutoff, manual low power mode, flashing takedowns & alleys, flash pattern change, program mode for user-defined flash patterns

LEGION FIT SERIES

GENERAL FEATURES

- An economical option with simplified functionality (on/off, flash pattern change, low power)
- 3 LED inboard modules – 6 LED corners
- Single 4 wire harness includes battery direct power and ground, warning & flash pattern change / low power mode
- Available sizes: 24", 30", 36", 43", 49", 54" 60", 66", 72" & 84"
- Available LED colors: Amber, Blue, Red, White, Green

BRAKE / TAIL / TURN LEGION

GENERAL FEATURES

- New 3 harness (BTT, Warning, Work/Alley Light) set up eases installation
- Two rear-facing light modules perform DRL, brake and turn signal functions
- Optional 6 LED work lights (up to 4, front or rear facing)
- Alley lights optional
- Users choice flash modes: (front/back, side/side, criss/cross, whole bar)
- Traffic control patterns included at no additional charge
- Available sizes: 60"

COMMON FEATURES

- High performance & cost competitive
- Low-profile design
- User friendly design for easy field maintenance – remove top panel
- Black polycarbonate base wrapped around a rigid extruded aluminum spine
- Lenses are UV stabilized, greatly reducing the yellowing and cracking associated with exposure to extreme temperatures
- Inboard modules are 3 LED, corners are 6 LED
- Available LED colors: Amber, Blue, Red, White
- Mounting options: Graphite with vehicle specific straps, powder coated steel permanent mount (narrow or wide surface)

FEATURES

EVL SERIES
PICTURED IN 2020 FORD
EXPLORER PIU

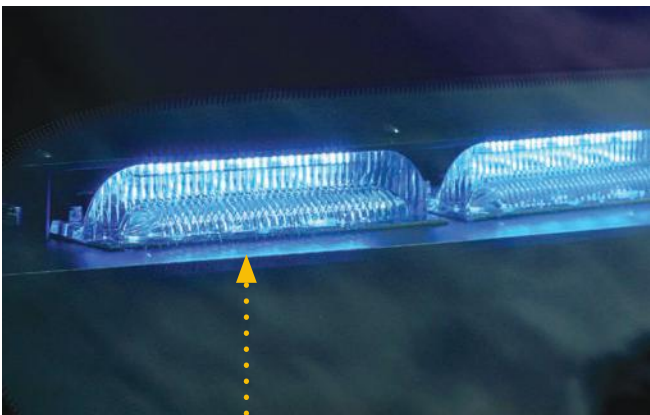

EVL SERIES INTERIOR LIGHTBAR

INTERIOR LIGHTBAR EVL SERIES

GENERAL FEATURES

- Lightweight, low profile design
- Tidal Optics produce maximum warning power
- Available in single color (EVL6) and dual color (EVL12) models
- Easy To install – No drilling required – Utilizes factory visor clips / attachments
- Flood / scene mode (dual color only)
- User programmable TD's (choose up to 8, and location via DIP switches)
- Several vehicle specific models available. Contact a Brooking representative for a full listing
- Universal model also available – accommodates most windshield rake angles. Drilling may be required with certain vehicles
- Available colors: Amber, Blue, Red, White, Green
- 5 year warranty

FEATURES

Tidal Optics

HORIZON

HORIZON DUAL COLOR / MULTI MODE WARNING — DIRECTIONAL LIGHT

HORIZON DUAL COLOR

- GENERAL SPECIFICATIONS**
- Compliance: SAE J595, CA Title 13, ECE R10, CISPR 25, IPX7
 - Operating Voltage: 12VDC
 - Flash Patterns: 50 warning / 16 arrow (6~10 head models)
 - Current Draw: Varies by head count
 - Sync: No
 - LED Count: 12 LED's per head - total varies by head count
 - Dimensions (see above for lengths): Common: 1.26"H x 2.1"D
 - Certificates: SAE J595, CA Title 13, ECE R10, CISPR 25, IPX7
 - Colors: Amber, Blue, Red, White (Choose 2 colors per lighthead - most combinations of listed colors kept in stock)
 - Warranty: 5 years

FEATURES FOR DUAL AND SINGLE COLOR

- BENEFITS FOR DUAL AND SINGLE COLOR**
- Dual (2) warning modes + user-programmable color setting modes allow conformation to virtually any scenario
 - Low profile, lightweight design
 - Patent pending “Q-Lock” coupling mechanism facilitates quick easy maintenance / reconfiguration
 - Q-Lock couplers match clear lensed lightheads producing a “wall of light” effect (no “dead spots”)
 - Programmable traffic arrow w/ end flasher mode - add various end flasher effects to one of many traffic control patterns
 - Available in 2, 4, 6, 8 and 10 head models
 - Rigid aluminum chassis aids in heat dissipation

HRZ12 OPTICS

Not using traffic control patterns and need more steady / scene lighting? Steady / scene option added to traffic control (arrow) patterns list.

NEW

Pictured on push bumper with flood (steady white) activated

HORIZON / RAYZR CONTROLLER

- SW610-TA - Multi-purpose 6-Button
- Switch w/ LED indicator

*Horizon / RayZR specific

Controllers are specific to Brooking products, therefore they cannot be used to control other manufacturer's products. Both Horizon and RayZR light sticks can be controlled by other manufacturer's controllers.

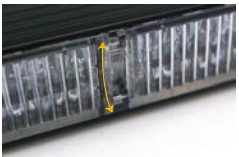

HORIZON SINGLE COLOR

*See page 6 for 2, 4 and 8 head lengths

GENERAL SPECIFICATIONS

- Flash Patterns: 50 warning / 11 arrow (6~10 head models)
- Operating Voltage: 12~24Vdc
- Current Draw: Varies by head count
- Sync: No
- LED Count: 6 LED's per head - total varies with head count
- Dimensions: See above
- Certificates: SAE J595, CA Title 13, ECE R10, CISPR 25, IPX7
- Colors: Amber, Blue, Red, White

Q-Lock Mechanism - Quick release for lighthead swap

RayZR LIGHT STICK

RayZR LIGHT STICK

SPECIFICATIONS

- Flash Patterns: 4 Head: 27 (No Traffic Patterns) | 6, 8 & 10 Head: 20 Warning / 11 Traffic
- Operating Voltage: 12~24 Vdc
- Current Draw (@ 12.8 Vdc): 4 Head 1.1A | 6 Head 1.5A | 8 Head 1.9A | 10 Head 2.4A
- Sync: No
- LED Count: Varies By Length / Head Count (3 LED's Per Module)
- Dimensions:
 - Length: 4 Head - 18" | 6 Head - 26.50" | 8 Head - 34.50" | 10 Head - 43.44"
 - Height: 0.95"
 - Depth: 1.50"
- Certificates: SAE J595 Class 1, SAE J845, CA Title 13
- Colors: Amber, Blue, Red, Green, White

FEATURES

BENEFITS

- Low profile
- Lightweight
- Traffic control patterns included at no additional charge
- Field service-friendly
- Multiple universal mounting options available

HORIZON and RayZR LIGHT STICK MOUNTING BRACKETS

HZNRZ-MLB - Mini L Bracket

HZNRZ-LB - Standard L Bracket

HZNRZ-HALB - Height & Angle Adjustable

HZNRZ-SFB - Flush Mount

M16 WIDE ANGLE OUTPUT 16 LED

GENERAL SPECIFICATIONS

- Flash Patterns: 30
- Output Voltage: 12~24VDC
- Current Draw: 0.52A @12VDC / 0.26A @24VDC
- Sync: Up to 20 units
- LED Count: 16 (interleaved 8x8)
- Certifications: SAE J595 Class 1; SAE J845 Class 1; CA Title 13, IPX7; CISPR 25
- Color: Amber, Blue, Green, Red, White (most combinations of any 2 colors)

FEATURES

BENEFITS

- Unique wide angle optics produce the widest light spread in the industry
- Programmable via BlinkCast User Interface (PC)
- Color Setting Modes allow flashing of one color, or both, while also allowing for isolation of one color for steady/scene/cruise lighting
- Black bezel included standard with each unit, white and chrome sold separately
- Bezels snap on, covering mounting screws
- Low-profile design facilitates installation in tight spaces - the narrowest light in the marketplace
- UV infused, hard-coated lenses are ultra-resistant to yellow harsh weather / road conditions

NEW

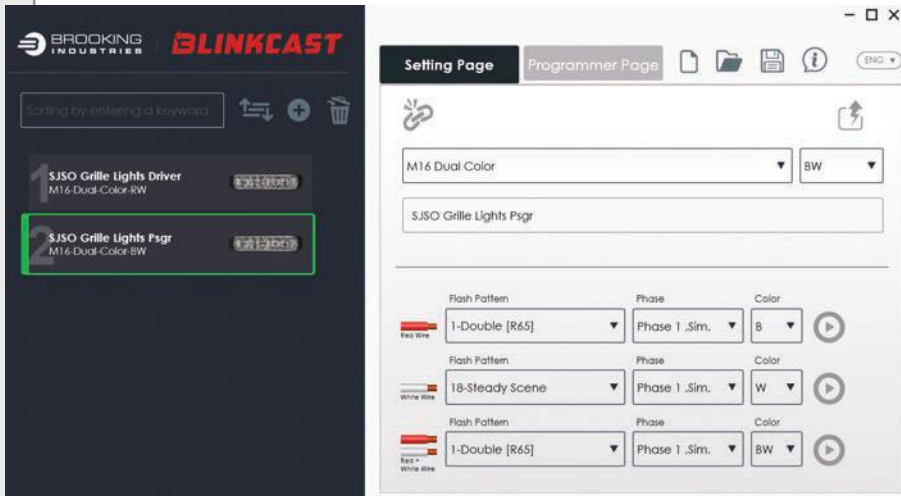

BLINKCAST

Quick Configuration Tool

Save valuable time by using the new programming module! Simply download the Blinkcast User Interface to any PC and eliminate the tedious wire tapping for flash pattern selection, groups / phases, flash modes, etc.

*One unit sent free of charge with first M16 lighthouse purchase.

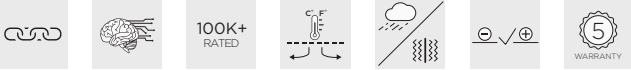

ES6 6 LED - VERSA-MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 23
- Output Voltage: 12~24 Vdc
- Current Draw: 0.57A @ 12Vdc - 0.29A @ 24Vdc
- Sync: Up to 20 Units
- LED Count: 6
- Dimensions: 5.09"L X 0.62"H X 1.07"D
- Certificates: SAE J595 Class 1, CA Title 13, ECE R65 / R10
- Colors: Amber, Blue, Red, White & most split-color combinations

FEATURES

BENEFITS

- Low-profile design facilitates installation in tight spaces - the narrowest light in the marketplace
- Versatile Fiber Reinforced Plastic mounting tabs included with each unit, eliminating the need for additional bracketry, reducing overall cost.
- UV infused, hard-coated lenses are ultra-resistant to yellowing / cracking caused by harsh weather / road conditions

Perfect for narrow spaces!

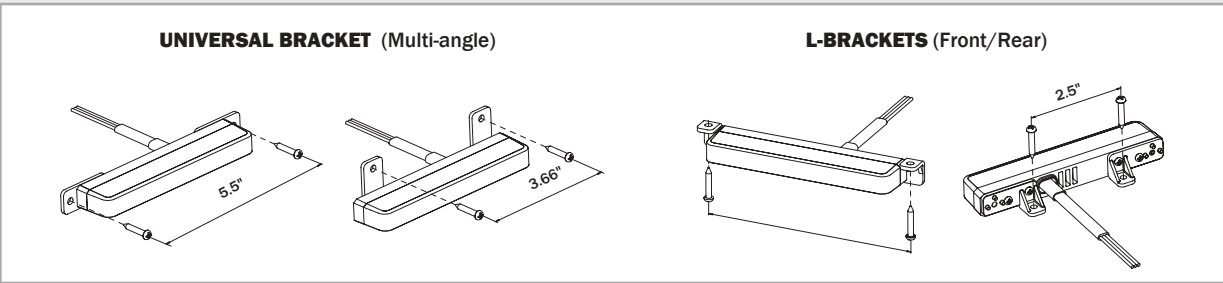

ES6-WDS
Windshield Shroud Kit
with adjustable angle — Lighthouses may be adjusted 10° up / down for optimum warning efficiency.

LPF46
Universal License Plate Frame

ES6 MOUNTING BRACKETS (INCLUDED WITH EACH UNIT)

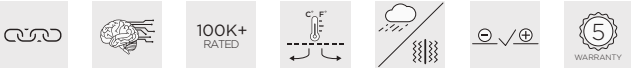

ST SERIES LIGHTHEADS

ST3 3 LED SUPER-THIN - SURFACE MOUNT

- GENERAL SPECIFICATIONS**
- Flash Patterns: 12
 - Operating Voltage: 12~24 Vdc
 - Current Draw: 0.24A @ 12Vdc - 0.12A @ 24Vdc
 - Sync: Up to 20 Units
 - LED Count: 3
 - Dimensions: 3.38"L X 1.1"H X 0.35"D
 - Certificates: SAE J595 Class 1; CA Title 13, ECE R10-04
 - Colors: Amber, Blue, Red, White

FEATURES

- BENEFITS**
- Super-thin profile
 - UV infused, hard-coated lenses are ultra-resistant to yellowing / cracking caused by harsh weather / road conditions
 - Black bezel included - white & chrome sold separately (pictured on page 11)

ST26D 24 LED SUPER-THIN - SURFACE MOUNT

- GENERAL SPECIFICATIONS**
- Flash Patterns: 28
 - Operating Voltage: 12~24Vdc
 - Current Draw: 1.39A @ 12Vdc - 0.70A @ 24Vdc
 - Sync: Up to 20 units
 - LED Count: 24
 - Dimensions: 4.5"L x 1.71"H x 0.35"D
 - Certificates: SAE-J595 Class 1, ECE-R65, IPX7
 - Colors: Amber, Blue, Green, Red, White and most 2 color combinations

FEATURES

- BENEFITS**
- Dual Color / Dual Mode capability
 - Color Setting Modes allow flashing of one color, or both, while also allowing for isolation of one color for steady/scene/cruise lighting
 - Super-Thin design promotes clean, streamlined aesthetics
 - Black bezel included with each unit, white and chrome sold separately
 - Multi-unit synchronization in simultaneous or alternating flash modes
 - UV infused, hard-coated lenses are ultra-resistant to yellowing / cracking caused by harsh weather / road conditions
 - Fully Weatherproof and vibration resistant design for external or internal use
 - Solid aluminum base facilitates efficient heat dissipation while also maximizing durability
 - Non-volatile memory recalls last flash pattern used at power up
 - Reverse polarity and Load dump protection

ST6D 12 LED DUAL COLOR/DUAL MODE - SURFACE MOUNT

- GENERAL SPECIFICATIONS (D & DQM)**
- Flash Patterns: 28
 - Operating Voltage: 12~24VDC
 - Current Draw: 0.44A @12VDC / 0.22A @24VDC (varies with flash pattern)
 - Sync: Up to 20 Units
 - LED Count: 12 (interleaved 6x6)
 - Certificates: SAE J595 Class 1; SAE J845 Class 1; ECE R65 (XA1, XB1, XR1); ECE R10; IPX7; CISPR 25
 - Color: Amber, Blue, Green, Red, White (most 2 color combinations)

FEATURES

- BENEFITS (D & DQM)**
- Dual Color / Dual Mode capability
 - Color Setting Modes allow flashing of one color, or both, while also allowing for isolation of one color for steady/scene/cruise lighting
 - Super-Thin design promotes clean, streamlined aesthetics
 - Black bezel included with each unit, white and chrome sold separately (D model only)
 - Multi-unit synchronization in simultaneous or alternating flash modes
 - UV infused, hard-coated lenses are ultra-resistant to yellowing / cracking caused by harsh weather / road conditions
 - Fully Weatherproof and vibration resistant design for external or internal use
 - Solid aluminum base facilitates efficient heat dissipation while also maximizing durability
 - Non-volatile memory recalls last flash pattern used at power up
 - Reverse polarity and Load dump protection

ALL ST SERIES LIGHTHEADS BEZELS (EXCEPT DQM QUICK-MOUNT)

Black Bezel (included with each unit)

Chrome Bezel (sold separately)

White Bezel (sold separately)

ST6DQM 12 LED DUAL COLOR/DUAL MODE - QUICK MOUNT

An adhesive quick-mount version of the popular ST6D. Pre-applied 3M adhesive backing results in fewer holes to drill, while the reduced size (lack of screw flanges) allows placement in smaller spaces. Each unit includes an alcohol wipe for pre-installation surface prep.

NEW

PERIMETER LIGHTING MOUNTING BRACKETS

Each lighthead in the perimeter lighting section has its own unique version of the brackets pictured below. Consult a Brooking associate for a full listing.

Single L
(available in 90 degree and 45 degree)

Double L (side by side)

Double L (top/bottom)

Single Swivel (2 Piece)

Single Fork/Headliner

Dual Head License Plate

MS6BHD 12 LED - DUAL COLOR/DUAL MODE - VERSA-MOUNT

- GENERAL SPECIFICATIONS**
- Flash Patterns: 12
 - Operating Voltage: 12~24 Vdc
 - Current Draw: 0.6A @ 12Vdc - 0.3A @ 24Vdc
 - Sync: Up to 20 Units
 - LED Count: 12 (6x6 Interleaved)
 - Dimensions: 5.0"L X 1.1"H X 0.68"D
 - Certificates: SAE J595 Class 1, CA Title 13, ECE R10-04
 - Colors: Amber, Blue, Red, White & most 2 color combinations
 - Low-profile design facilitates installation in tight spaces
 - Heavy duty aluminum base withstands the harshest conditions

FEATURES

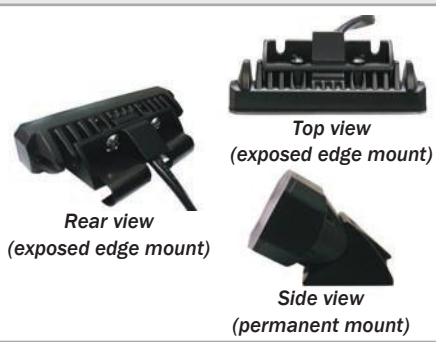

BENEFITS

- Dual Color / Dual Mode capability
- Color Setting Modes allow flashing of one color, or both, while also allowing for isolation of one color for steady/scene/cruise lighting
- Multiple mounting options (see images)
- Multi-unit synchronization in simultaneous or alternating flash modes
- UV infused, hard-coated lenses are ultra-resistant to yellowing / cracking caused by harsh weather / road conditions

MS Series - Use white for both warning and scene / flood lighting.

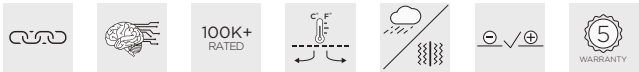

MOUNTING BRACKETS

OV9 9 LED - SURFACE MOUNT

- GENERAL SPECIFICATIONS**
- Flash Patterns: 18
 - Operating Voltage: 12~24Vdc
 - Current Draw: 0.79A @ 12Vdc - 0.395A @ 24Vdc
 - Sync: Up to 20 units
 - LED Count: 9
 - Dimensions: 7.2"L x 2.1" (w/ bracket) x 3.2" (3.9" w/ bracket)
 - Certificates: SAE-J845, ECE-R65, IPX7
 - Colors: Amber, White

FEATURES

BENEFITS

- Wide angle output spreads output 150, 270 or 360 degrees depending on unit count and mounted angles / orientation.
- Sleek, low profile design
- Dual modes (warning & cruise / ID)
- Combine multiple units for customized / unique effects.
- Versatile installation via angle adjustable L bracket.
- Multi-unit synchronization
- UV infused, hard-coated lenses are ultra-resistant to yellowing / cracking caused by harsh weather / road conditions
- Reverse polarity protection
- 5 year warranty

NEW

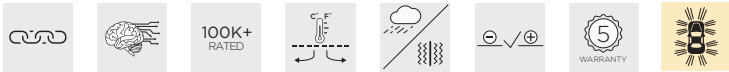

Double them up for 2X the warning power!

UR6 6 LED - FLUSH MOUNT

- GENERAL SPECIFICATIONS**
- Flash Patterns: 26
 - Operating Voltage: 12~24Vdc
 - Current Draw: 0.55a @ 12vDC - .028 @ 24vDC
 - Sync: 15+ Units
 - LED Count: 6 per lighthead
 - Dimensions: Insert 1.03" diameter x 1.56" deep
 - Colors: Amber, Blue, Red, White & most 2 color combinations

FEATURES

BENEFITS

- Color mode options facilitate versatile functionality
- Heavy duty heat sink
- 1 in-line flasher powers both heads
- Low profile flush mount

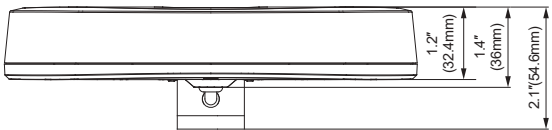

Also available in 4 LED single color version (UR4)

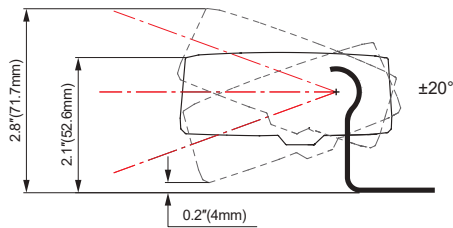

Shown installed under door as a puddle light

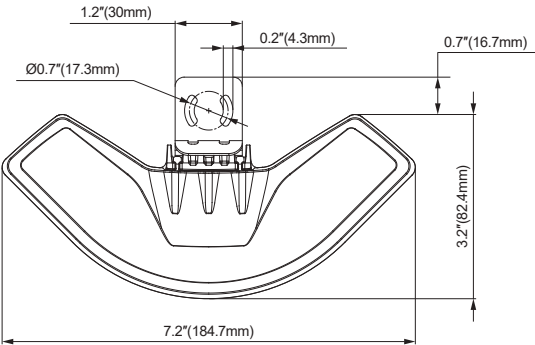

UR6 KIT

Adjustable Angle

w/ Mini L-bracket

LP SERIES LIGHTHEADS

NEW

LP3 3 LED - SURFACE MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 12
- Current Draw: 0.27A @ 12Vdc - 0.14A @ 24Vdc
- Sync: Up to 20 Units
- LED Count: 3
- Dimensions: 3.45"W x 0.26"D x 1.18"H
- Certificates: SAE J595 Class 1, CA Title 13, ECE R10, IPX8
- Colors: Amber, White
- Warranty: 5 years

LP6 6 LED - SURFACE MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 23
- Current Draw: 0.25A @ 12Vdc - 0.125A @ 24Vdc
- Sync: Up to 20 Units
- LED Count: 6
- Dimensions: 5.14"W x 0.26"D x 1.18"H
- Certificates: SAE J595 Class 1, SAE J845 Class 1, CA Title 13 Class B, ECE R10, IP68
- Colors: Amber, Amber/White (split)
- Warranty: 5 years

COMMON FEATURES

- Low-profile for discreet mounting (0.26")
- Optional adhesive quick-mount backing (user applied)
- Multi-Voltage Input 12~24VDC.
- LEDs rated to 100,000 hours of operation.
- Non-volatile memory recalls last flash pattern used at power up.
- Multi-units synchronization.
- Reverse polarity protection.
- Weatherproof and vibration resistant design for external or internal use.
- Aluminum base for efficient heat dissipation and maximum durability.

FEATURES

COMING SOON!

LP22 4 LED - SURFACE MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 18
- Current Draw: 0.23A @ 12Vdc - 0.12A @ 24Vdc
- Sync: Up to 20 units
- LED Count: 4
- Dimensions: 2.36"L x 2.36"W x 0.26"H
- Certificates: SAE J595 Class 1, ECE R10, CA Title 13, IPX7
- Colors: Amber, White
- Warranty: 5 years

LP26 12 LED - SURFACE MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 30
- Current Draw: 0.715A @ 12Vdc - 0.357A @ 24Vdc
- Sync: Up to 20 Units
- LED Count: 12
- Dimensions: 3.45"W x 0.26"D x 1.99"H
- Certificates: SAE J595 Class 1, SAE J845 Class 1, CA Title 13, ECE R10, IPX7
- Colors: Amber, Amber/White
- Warranty: 5 years

AL6 SERIES LIGHTHEADS

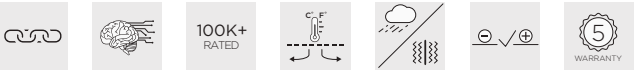

AL6S 6 LED
PICTURED W/
CHROME BEZEL

AL6S 6 LED - SURFACE MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 16
- Operating Voltage: 12~24 Vdc
- Current Draw: 0.57A @ 12Vdc - 0.285A @ 24Vdc
- Sync: Up to 20 Units
- LED Count: 6
- Dimensions: 3.81"L X 1.36"H X 1.41"D
- Certificates: SAE J595 Class 1 (solid colors only) - J845, ECE R65 / R10
- Colors: Amber, Blue, Red, White & most split-color combinations

FEATURES

BENEFITS

- Wrap around lens with linear optics produces super-effective, wide-angle output
- Black bezel included - white and chrome sold separately

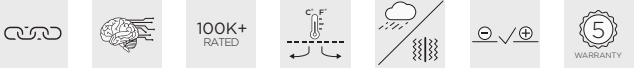

PICTURED W/O BEZEL

AL6M 6 LED - VERSA-MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 16
- Operating Voltage: 12~24 Vdc
- Current Draw: 0.57A @ 12Vdc - 0.285A @ 24Vdc
- Sync: Up to 20 Units
- LED Count: 6
- Dimensions: 2.91"L X 1.37"H X 2.63"D (With Bracket And Cover)
- Certificates: SAE J595 Class 1 (solid colors only) - J845, ECE R65 / R10
- Colors: Amber, Blue, Red, White & most split-color combinations

FEATURES

BENEFITS

- Wrap around lens with linear optics produces super-effective, wide-angle output
- Unique bracketry allows for under-mirror mount on most vehicles, no additional wedges / parts necessary

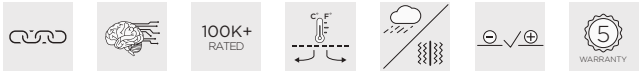

TLED04B 4 LED - SURFACE MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 19
- Operating Voltage: 11~30 Vdc
- Current Draw: 0.28A @ 12Vdc - 0.15A @ 24Vdc
- Sync: Up to 20 Units
- LED Count: 4
- Dimensions: 4.8"L X 1.6"H X 1.2"D
- Certificates: SAE J595, CA Title 13, E13, E13
- Colors: Amber, Blue, Red, White & most split-color combinations

FEATURES

BENEFITS

- Economical and reliable
- Black bezel included - chrome sold separately

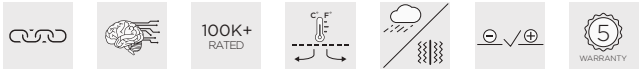

HAL09 9 LED - HIDE-AWAY / SURFACE MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 19
- Operating Voltage: 12~24 Vdc
- Current Draw: 1.25A @ 12Vdc - 0.63A @ 24Vdc
- Sync: UP to 20 Units
- LED Count: 9
- Dimensions: Insert: 1" (dome) Diameter X 1.13"H X 0.67"D Bezel: 2.26"L X 1.65
- Colors: Amber, Blue, Red, White

FEATURES

BENEFITS

- Pyramid (3x3x3) design produces wide angle output
- 1 in-line flasher powers both modules
- Black bezel included - white and chrome sold separately

HIDE-AWAY INSERTS / SURFACE MOUNT

HAL06DF 6 LED - HIDE-AWAY / SURFACE MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 19
- Operating Voltage: 10~16 Vdc
- Current Draw: 0.65A @ 12Vdc
- Sync: Up to 20 Units
- LED Count: 6
- Dimensions: Insert: 1" (dome) Diameter X 0.84"H X 1.26"D Bezel: 2.26"L X 1.65H X 0.4"D
- Colors: Amber, Blue, Red, White & most 2 color combinations

FEATURES

BENEFITS

- 45° LED orientation
- Color mode options facilitate versatile functionality
- 1 in-line flasher powers both heads
- Black bezels included - white and chrome sold separately

NEW

AR-HAW - HIDE-AWAY / SURFACE MOUNT

Whether it's a twist lock hole that doesn't match the lighthead's shape, or a manually drilled 1" hole, use of this adapter kit can solve most mounting issues. Two aluminum rings with matching double sided 3M adhesive rings settle comfortably into the recess in the PAL06's rubber pop-in base, or on top of the flange base of the HAL06, HAL09 or M53 lighthead. As long as the area immediately around the hole is flat, these adapter rings will stick on, and never fall off.

Pictured with ring on PAL06DF

PAL06DF 6 LED - HIDE-AWAY / SURFACE MOUNT

GENERAL SPECIFICATIONS

- Flash Patterns: 19
- Operating Voltage: 10~16 Vdc
- Current Draw: 0.65A @ 12Vdc
- Sync: Up to 20 Units
- LED Count: 6
- Dimensions: Insert: 1" Diameter X 0.95"H X 1.2"D Bezel: 2.26"L X 1.65"H X 0.4"D
- Colors: Amber, Blue, Red, White & most 2 color combinations

FEATURES

BENEFITS

- Color mode options facilitate versatile functionality
- Rubber pop-in base facilitates quick and easy installation
- 1 in-line flasher powers both heads
- Black bezel included - white and chrome sold separately

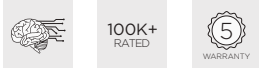

DASH / DECK LIGHTING

XMMAX206P 12 LED DASH / DECK LIGHT

GENERAL SPECIFICATIONS

- Flash Patterns: 26
- Output Voltage: 24 Vdc
- Current Draw: 0.8A @ 12 Vdc
- LED Count: 12
- Dimensions: 4.6"D (w/ shroud) x 1.54"H x 9.5"W
- Certificates: SAE J595
- Mount: Windshield / suction cups, headliner (pictured), side mounted mini L brackets
- Colors: Amber, Blue, Red, White and most 2 color combinations

FEATURES

BENEFITS

- Alternative mounting options (headliner, side-mount suction cups, side-mount L brackets)
- Multiple user-selectable flash patterns

MBMMAX2H
Headliner Bracket

P.V.L.S.K. PORTABLE VEHICLE LIGHT & SIREN KIT

PORTABLE EMERGENCY VEHICLE LIGHT & SIREN SYSTEM

CONTENTS OF THIS COMPLETELY CONTAINED AND TRAVEL-SAFE SYSTEM INCLUDE:

- (1) SDF104-HR Full Function Light / Siren Controller (100W)
- (1) JS-100: 100W speaker w/ heavy duty L bracket w/ (2) C clamps for mounting
- (4) XMMAX206P: LED Dash/Deck Lights
- (1) TWY2-Light: "Take it With You" Clip On Personal Illumination Device
- (1) Multi-Head Screwdriver Tool
- (1) 24 Count Package of Window Wipes to prep glass for suction
- (1) Package of glass prep wipes
- Plug & play wiring harness for main power, speaker and all lights

DIMENSIONS / WEIGHT:

Dimensions: 23H x 18W x 12D

Weight: 35 lbs.

Whether you are at an airport rental car facility, hotel parking lot, disaster site, or fleet garage, installing and recovering the PEVLSS is a quick and efficient way to temporarily convert most any vehicle into an emergency response unit. It is also an ideal solution for equipping any vehicle where permanent installation of emergency lights and siren is not an option.

EQUIPMENT MOUNTING CONSOLES

BC-LBSK CONSOLE

GENERAL SPECIFICATIONS

- Powder-coated steel construction
- Fits most larger vehicles (SUV, Pick-Up)
 - Mounts to factory mount plate.

FEATURES

- Foam padded armrest
- Large dual cup holders w/ plate
- Optional side mount ticket book holder / pen holder
- 3-piece filler plate kit fills gaps caused by odd-sized equipment plates

BENEFITS

- Universal design fits most larger vehicles (SUV / Pick- Up)
- Adjustable height (front & rear)
- Indention on driver's side keeps armrest out of seating area, creating more space for the driver

Each console comes with up to three equipment mounting plates to accommodate any manufacturer's products.

BD-DC2 CONSOLE

GENERAL SPECIFICATIONS

- Powder-coated steel construction
- Fits 2011+ Dodge Charger
- Mounts directly to PPV drive tunnel (Must have OEM bolts or OEM mounting base)

FEATURES

- Side-mounted, height-adjustable, foam-padded armrest
- Large dual cup holders w/ plate
- Laptop stand plate that accommodates most manufacturer's stands
- Mounts directly to PPV drive tunnel (Must have OEM bolts or OEM mounting base)
- 3-piece filler plate kit fills gaps caused by odd-sized equipment plates
- Outlet plate for factory 12V & USB receptacles

BENEFITS

- Lower height between seats
- Indention on rear driver's side keeps armrest out of seating area, creating more space for the driver

SIRENS / SPEAKERS

SDP212-H 200W FULL FUNCTION HAND-HELD LIGHT & SIREN CONTROLLER (12~24VDC)

GENERAL SPECIFICATIONS

- Max. Current:
 - 20A @ 12VDC / 10A @ 24VDC (w/o light control outputs)
 - 100A @ 12VDC / 50A @ 24VDC (w/ light control outputs)
- Siren Output Power: 200W (11W speaker x2) 110hms
- Siren Frequency: Varies by tone
- I/O: Power, IGN (ignition), Speaker Output x2, High Current Output x3, Mid/Low Current x9, Logic Input x4, Voltage Variable Analog Input x1, Radio Audio Input, Microphone 1 (optional), Controller port, PC Link USB Port
- Light Controls: (3) 15A, (3) 10A, (2) 2A, (4) 0.25A light control outputs
- Fuse Ratings: Blade Fuse: (1) 30A, (3) 15A, (3) 10A, (2) 2A.
- Resettable Fuse: (4) 0.25A
- Cable lengths: Connector Harnesses x5: 11.8" ea.
Controller RJ45 Extension Cord: 13.1'

FEATURES

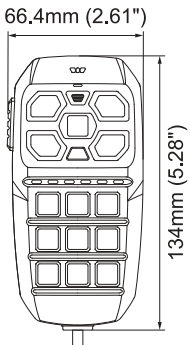

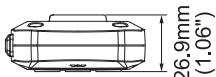

- 200W, capable of emitting different tones from (2) 100W speakers
- 15 button hand-held controller w/ built-in mic, button buzzer, 6 LED traffic arrow indicator & power magnet mounting mechanism.
- 12 Outputs: (3) 15A, (3) 10A, (2) 2A, (4) 0.25A and (1) dry contact relay output.
- 4 Positive or negative activated logic inputs and 1 voltage variable analog input.
- 12~24Vdc multi-voltage
- Low amp draw, class D amplifiers produce and incredibly clean, crisp tone & LOUD output when paired with JS-100 speaker.
- 200W amplifier supports one or two 100W speakers (11 Ohm).
- 2 back lighting modes (normal & covert).
- Selectable tones: Wail, Yelp, Phaser / Piercer, Hi-Lo, Mechanical, European tones, etc.
- Heavy duty power and output connector blocks with easily accessible fuses.
- Radio RE-Broadcast (RRB) for audio replay.
- Record-n-Play: Record instantly replayable messages (up to 20 seconds)

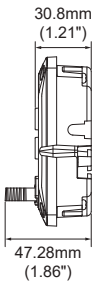

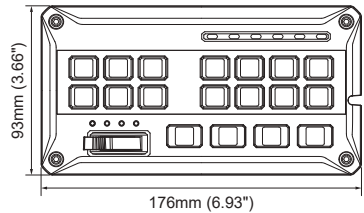

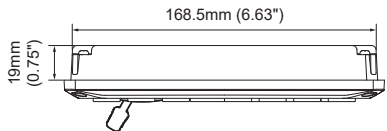

REMOTE CONSOLE MOUNT VERSION AVAILABLE Q1 2022

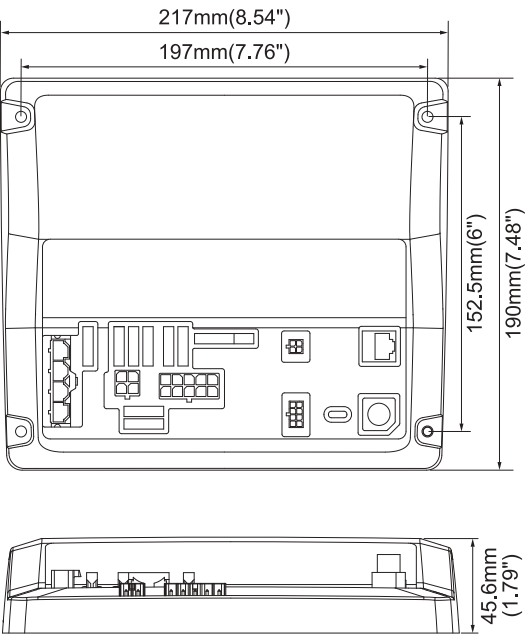

15 BUTTON HAND-HELD CONTROLLER

19 BUTTON CONSOLE MOUNT CONTROLLER

SIREN / AMPLIFIER

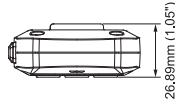

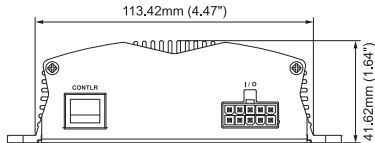

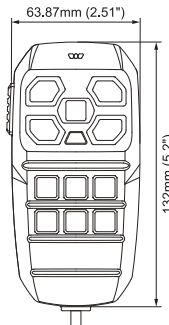

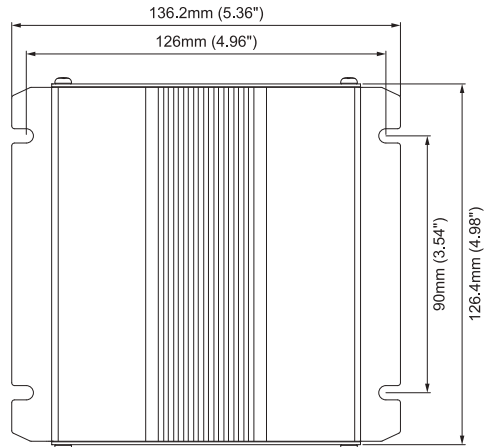

SDF104-H 100W FULL FUNCTION HAND-HELD LIGHT & SIREN CONTROLLER (12~24VDC)

GENERAL SPECIFICATIONS

- Max. Current:
 - 10A @ 12VDC / 5A @ 24VDC (w/o light control outputs)
 - 30A @ 12VDC / 25A @ 24VDC (w/ light control outputs)
- Siren Output Power: 100W
- Siren Frequency:
 - 761Hz - 1592Hz (WAIL/YELP/PHASER)
 - 362Hz - 733Hz (HI/LO)
- I/O: +VDC, IGN (Ignition), Radio Audio Input (+/-), -GND, SW1-SW4, Speaker Output (+/-), Horn Ring Transfer Input
- Siren Controls:
 - (5) On/Off buttons (Siren, Radio, Code 1, 2 & 3)
 - (3) Momentary buttons: (PTT, MAN, HORN)
 - (4) Momentary/Sustained/Timed buttons (SW1, 2, 3 & 4)
 - SW1 can be set to interlock SW2, 3, 4 & Siren
 - IGN (Ignition) input connection
 - HORN input connection
- Light Controls: 4 lighted push button switches
- Light Output Ratings: Built-in 5A fuse on each of the (4) outputs

FEATURES

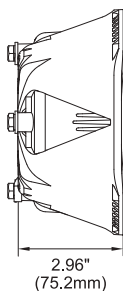

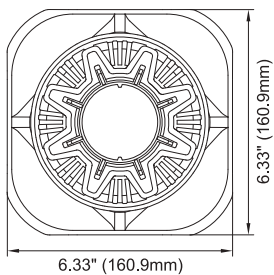

- 6 classic tones: WAIL, YELP, PHASER, HI/LO, MAN WAIL and AIR HORN
- 6-position rotary mode switch with LED back lighting
- 100W siren amplifier for single speaker (110hm) setup
- 12-24VDC multi-voltage
- Low amp draw, Class D amplifier produces an incredibly clean, crisp tone & LOUD output when paired with JS-100 speaker
- Reverse Polarity Protection
- Momentary Horn/Man toggle switch
- PA function with basic handheld microphone
- Compact, powder-coated aluminum housing
- Adjustable volume for PA function
- 0.2 Amp output for warning light control

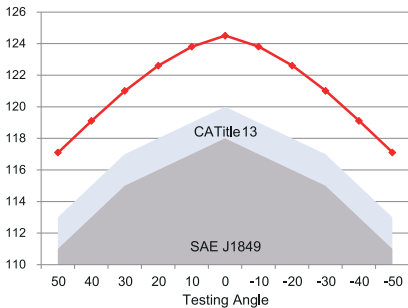

JS-100 100W SIREN SPEAKER

FEATURES

- Exceeds SAE requirements
- Powerful Neodymium magnet produces output in excess of 124.5dB
- Compact, durable design
- Fiber Reinforced Nylon housing w/ cast aluminum driver unit.
- Industrial strength L bracket included for mounting. 2 piece adjustable bracket sold separately

SOUND PRESSURE LEVEL

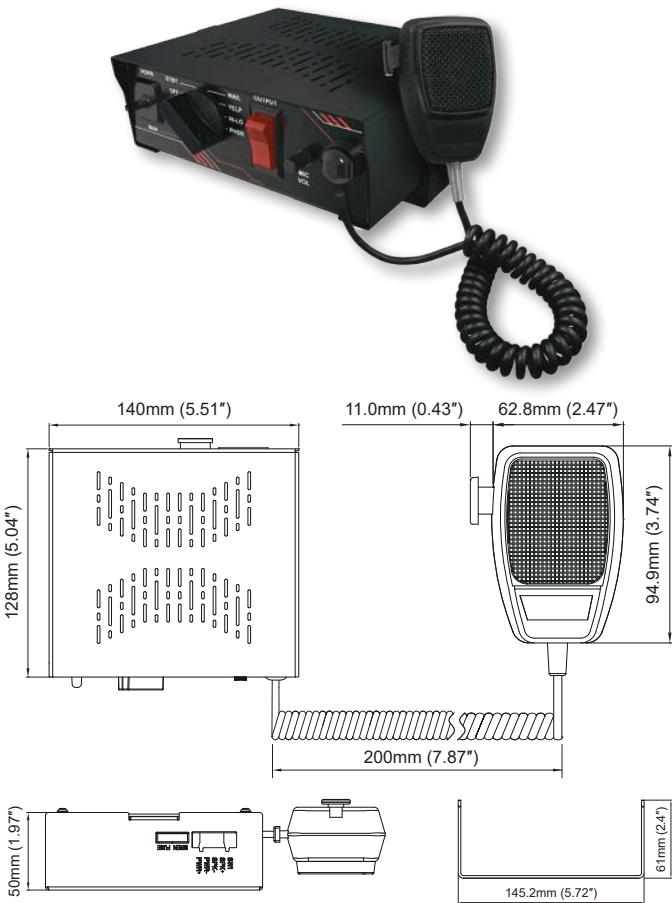

SDB101-S 100W CONSOLE MOUNT BASIC SIREN W/ LIGHT CONTROL (12~24VDC)

GENERAL SPECIFICATIONS

- Compliance: SAE J1849 EVS1; CISPR 25
- Input Voltage: 12-24 VDC
- Standby Current: 0mA (w/o IGN wire) / <0.35A (w/ IGN wire)
- Avg. Current: 8.5A @ 12VDC / 4A @ 24VDC
- Max. Current: 10A @ 12VDC / 5A @ 24VDC
- Siren Output Power: 100W
- Siren Output Load: 100W-ACR 11Ω
- Siren Frequency: 759Hz - 1592Hz
- Operating Temp: -30 °C to 65 °C
- I/O: ■ +VDC, ■ -GND, ■ Speaker Output+-, ■ SW1,
- Siren Controls:
 - 1x 6-position rotary knob (OFF, STBY, WAIL, YELP, HI-LO, PHSR)
 - 1x 2-position lever switch (HORN, MAN)
 - 1x ON/OFF switch (SW1)
 - 1x MIC volume knob
- Light Controls: 1x light control output powering up to 0.2 Amps max.
- Fuse Ratings: Built-in 15A fuse for the amplifier.
- Cable Lengths: Microphone Extension Cord: 20cm

FEATURES

- 6 classic tones: WAIL, YELP, PHASER, HI/LO, MAN WAIL and AIR HORN.
- 6-position rotary mode switch with LED backlight.
- 100W siren amplifier for single speaker (110hm) setup.
- 12-24VDC multi-voltage.
- Low amp draw, Class D amplifier produces an incredibly clean, crisp tone & LOUD output when paired with JS-100 speaker
- Meets ECE R10 standard; certification will be applied upon request.
- Reverse Polarity Protection.
- Momentary Horn/Man toggle switch.
- PA function with basic handheld microphone.
- SAE J1849 EVS1 certified performance and reliability.

SAS32R 30W SPEAKER SIREN SYSTEM

GENERAL SPECIFICATIONS

- Compliance: ECE R10, SAE J1113-13
- IP Rating: Siren IPX6; Speaker IPX4K
- Operating Voltage: 12~16VDC
- Low Voltage Detection: <11.6VDC
- Max. Power (Siren & Speaker): 30W
- Max. Current (Siren): 2.5A @ 13.6VDC
- Steady Current: <0.08A
- Siren Tones: Wail, Yelp, Phaser, HiLo, Manual Wail
- Aux Output: 12VDC, 5A x 2
- Audio Range: 725Hz~1465Hz
- Warranty: 2 Years

FEATURES

- Remote Controlled Compact 30W Siren Amplifier w/ Speaker
- Superb performance with siren volume of 109dB at 6.5'
- Two 5A Aux outputs, individually controlled for warning lights
- Built-in Siren Tones: Wail, Yelp, Phaser, HiLo
- Remote 3-button Control Panel (SW300) w/ Handlebar Bracket
- Rubber touch Tactile Switch w/ LED back-lighting
- Microphone available in Handheld or Clip-on

SAS32R-HHM
Handheld Mic Set

SW300
Control Panel

SAS32R-CM
Clip-on Mic Set

SWITCHBOXES

BR-935

FEATURES

- Three lighted rocker switches (15A)
- (2) on / off - (1) momentary
- Recesses in top of mounting plate allow for discreet under dash mount

Warranty: 3-year

BR-959J SWITCHBOX

FEATURES

- Six lighted rocker switches (15A) - Number 1-5 are two position (on/off), #6 is three position (on/off/momentary)

Warranty: 3 year

BR-960 SWITCHBOX

FEATURES

- Six lighted rocker switches - Switch #1 (40A), 2-5 (15A)

Warranty: 3 year

COMMON FEATURES OF
BR-959J & BR-960 SWITCH BOXES

- 2' wire harness
- Durable-powder-coated steel case
- LED back-lit switch titles
- 60 title adhesive legend sheet with extra white tiles
- Bail bracket and mounting hardware included

Dimensions: 6.25"L x 5" D x 2.25" H

99 SERIES DIGITAL SMART PANELS

The perfect LIGHTING CONTROL solution for undercover units.

BR-990 DIGITAL SMART PANEL (12V)

- FEATURES**
- Robust programming capability - 6 fully programmable tactile feel buttons (60A max output)
 - Program 1 button to act as an up to 8 second timed momentary (optional)
 - Quick response buttons: Digital switching facilitates faster accessory activation, lower operating current & increased reliability
 - Self-performing diagnostics at power-up ensure optimum performance
 - Raised silicone rubber push buttons w/ LED backlighting for easy button recognition
 - 60-title adhesive legend sheet
 - 2-piece swivel mount bracket included with each unit at no additional charge
 - Console mounting plate available (sold separately)

GENERAL SPECIFICATIONS

- Input Voltage:12 Vdc
- Current Draw: 60 Amps maximum
- Dimensions: 6.5"L x 2.5"H x 1.25"D

BR-995 DIGITAL SMART PANEL (12V)

- FEATURES**
- Robust programming capability - 6 fully programmable tactile feel buttons & 3 pursuit style (top) perform combinations of bottom 6 (12A max).
 - Program 1 button to act as an up to 8 second timed momentary (optional)
 - Quick response buttons: Digital switching facilitates faster accessory activation, lower operating current & increased reliability
 - Program lower six buttons to visually mimic traffic control / arrow patterns (if applicable)
 - Self-performing diagnostics at power-up ensures optimum performance
 - Walk-about test mode: Activate mode and each button's zone activates for 5 seconds
 - Raised silicone rubber push buttons w/ LED backlighting for easy button recognition
 - 60-title adhesive legend sheet
 - 2-piece swivel mount bracket included with each unit at no additional charge
 - Console mounting plate available (sold separately)

GENERAL SPECIFICATIONS

- Input Voltage:12 Vdc
- Current Draw:12A max
- Dimensions: 6.5"L x 2.5"H x 2"D

BR-997 DIGITAL PURSUIT SMART PANEL (12V)

- FEATURES**
- Robust programming capability - 6 fully programmable tactile feel buttons & 3 pursuit style (top) perform combinations of bottom 6 (12A max).
 - Hidden programmable membrane switches (2) designed to perform discreet functions (Ex: Timed gun lock release)
 - Program 1 button to act as an up to 8 second timed momentary (optional)
 - Quick response buttons: Digital switching facilitates faster accessory activation, lower operating current & increased reliability
 - Program lower six buttons to visually mimic traffic control (arrow) patterns (if applicable)
 - Self-performing diagnostics at power-up ensures optimum performance
 - Walk-about test mode: Activate mode and each button's zone activates for 5 seconds
 - Raised silicone rubber push buttons w/ LED backlighting for easy button recognition
 - LED backlighting for easy button recognition
 - 60-title adhesive legend sheet
 - 2-piece swivel mount bracket included with each unit at no additional charge
 - Console mounting plate available (sold separately)

BENEFITS

- Input Voltage:12 Vdc
- Current Draw:12A max
- Dimensions: 6.5"L x 2.5"H x 2"D

MINI DIGITAL CONTROLLER

SW-830 MINI DIGITAL CONTROLLER (10~24VDC)

- FEATURES**
- 8 silicone rubber push buttons (3 x 10A w/ built-in relays – 5 x 0.2A)
 - Program all 8 as either toggle or momentary
 - LED backlighting
 - LED read-out mimics traffic arrow pattern
 - 35-title adhesive legend sheet
 - Mounting options: Adjustable pedestal with suction cup for glass, or adhesive for dash / flat surface

Warranty: 5-year

BENEFITS

- Compact Design
- Control Panel: 3.74"W x 2.7"H x 1"D
- Power Module: 4.4"W x 3.5"L x 1.05"D

BR-RFT: 6 WAY FUSE & RELAY PANEL (90A MAX)

- Solid -State 6 way fuse & relay panel with 6 pre-wired 15A relays on a potted circuit board
- Boosts the amp load capability of the 995 or 997 to 15A per switch. Machine-crimped ends on both input and output ease installation, and a capped, 40A in-line fuse provides added protection for accessories.

THIS UNIT CAN BE USED TO INCREASE THE AMP LOAD CAPABILITY OF ANY SWITCHING DEVICE.

BEACONS

B22 16 LED LOW PROFILE

GENERAL SPECIFICATIONS

- Flash Patterns: 12
- Operating Voltage: 12 ~ 24Vdc
- Current Draw: 2.1A @ 12Vdc - 1.2A @ 24Vdc
- Dimensions: 2.27" (dome + base) x 5.59" base diameter
- Certificates: SAE J845 Class 1; IPX5; ECE R65 (TA1); ECE R10
- Sync: No
- Mount: Flat Surface
- Color: Amber (Amber lens), Amber (clear lens)

FEATURES

B19 36 HEAVY DUTY

GENERAL SPECIFICATIONS

- Flash Patterns: 14
- Operating Voltage: 12~24Vdc
- Current Draw: 2.78A @ 12Vdc | 1.39A @ 24Vdc
- Dimensions: 4.23"H (dome + base) x 7.17"D (base diameter)
- Certificates: SAE J845 Class I, CA Title 13, ECE R10 / 65, IPX5
- Sync: Up to 20 units
- Mount: Flat Surface, Pipe, Shelf, Mirror
- Color: Amber

FEATURES

B18 30 LED DUAL COLOR

GENERAL SPECIFICATIONS

- Flash Patterns: 16
- Operating Voltage: 12~24Vdc
- Current Draw: 1.67A @ 12Vdc | 0.84A @ 24Vdc
- Dimensions: 4.56"H (dome + base) x 5.59"D (base diameter)
- Certificates: ECE R65 (TA1 / TB2); ECE R10; SAE J845 Class 1; IPX5
- Sync: No
- Mount: 3 bolt permanent
- Colors: Amber/White only
- Branch guard available (B18-BG)

FEATURES

Branch guards are available for B18

BR-LEDBH 8 LED HIGH PROFILE

GENERAL SPECIFICATIONS

- Flash Patterns: 15
- Operating Voltage: 12 ~ 24Vdc
- Current Draw: 1.2A @ 12Vdc - 0.6A @ 24Vdc
- LED Count: 8 LED (2W)
- Dimensions: 6.75"H x 6.5"
- Mount: Flat surface, Magnet (cigar plug; amber only)
- Certificates: Class I, SAE J845 / J578
- Colors: Amber, Blue, Green, Red, Clear (white) - LEDs match dome color

FEATURES

MICROBAR SERIES

MB30 10 HEAD

GENERAL SPECIFICATIONS

- Flash Patterns: 23 | Operating Voltage: 12 ~ 24Vdc
- Current Draw: 2.5A @ 12Vdc - 1.25A @ 24Vdc | Sync: Up to 20 Units | LED Count: 30
- Dimensions: 9.76"L X 1.45"H X 6.77"D | Colors: Amber, Blue, Green, Red, White
- Certificates: SAE J845, CA Title 13, ECE R65

FEATURES

BENEFITS

- 10 High-Powered LED Modules
- Compact, low-profile design - easy to transfer between vehicles
- Mounts: Magnetic (w/ suction boot), permanent (low profile)
- Magnet Mount versions come with a fused, dual-switch cigar plug

L05 MB-EX 14 HEAD

GENERAL SPECIFICATIONS

- Flash Patterns: 24 | Operating Voltage: 12 ~ 24Vdc
- Current Draw: 3.1A @ 12Vdc - 1.55A @ 24Vdc | Sync: Up to 20 Units | LED Count: 42
- Dimensions: 15.74"L X 1.45"H X 6.77"D | Colors: Amber, Blue, Green, Red, White
- Certificates: SAE J845, CA Title 13, ECE R10 / R65

FEATURES

BENEFITS

- 14 High-Powered LED Modules
- Compact, low-profile design - easy to transfer between vehicles
- Available In Magnetic, Suction Magnet Or Permanent Mount
- Mounts: Magnetic (w/ suction boot), permanent (low profile)
- Magnet Mount versions come with a fused, dual-switch cigar plug

L07 MB-EXD DUAL COLOR 6 HEAD

GENERAL SPECIFICATIONS

- Flash Patterns: 24 | Operating Voltage: 12 ~ 24Vdc
- Current Draw: 3A @ 12Vdc - 1.5A @ 24Vdc | Sync: Up to 20 Units | LED Count: 72
- Dimensions: 15.74"L X 1.45"H X 6.77"D | Colors: Amber, Blue, Red, White (Choose Up To 3)
- Certificates: SAE J845

FEATURES *New & improved programming process!*

BENEFITS

- 6 High-Powered LED Modules – 12 interleaved LED's per module
- Compact, low-profile design - easy to transfer between vehicles
- Color Changing: Switch from one color mode to another on the fly
- Mounts: Magnetic (w/ suction boot), permanent (low profile)
- Magnet Mount versions come with a fused, dual-switch cigar plug

G6

G6 6 HEAD

- GENERAL SPECIFICATIONS**
- Flash Patterns: 19 | Operating Voltage: 12~24Vdc
 - Current Draw: 1.6A @ 12Vdc | Sync: Up to 20 Units | LED Count: 18
 - Dimensions: 16.7"L X 2.9"H X 6.3"D | Colors: Amber, Blue, Red, White
 - Certificates: SAE J845 Class 1
 - LED colors: Amber, Blue, Red, White
 - Lens / Dome Colors: Clear, Amber

FFEATURES

BENEFITS

- 6 super-bright Fresnel LED modules
- Fluted / optical dome
- Mounts: Magnetic, Vacuum Magnet, Permanent Mount (low-profile & high profile)
- Magnet Mount versions come with a fused, dual-switch cigar plug

L13 MINI FALCON

NEW

L13 MINI FALCON

- GENERAL SPECIFICATIONS**
- Flash Patterns: 29
 - Operating Voltage: 12~24Vdc
 - Current Draw: 1.66A @ 12Vdc / 0.83A @ 24Vdc
 - Sync: Up to 20 units
 - LED Count: 24
 - Dimensions: 9.88"L x 1.65"H x 6.69"D
 - Colors: Amber, Amber / White (split)
 - Lens / Dome color: Clear

FEATURES

BENEFITS

- Exceptionally compact, bright & cost effective
- Fluted / optical dome produces optimum output
- Low power mode
- Mounts: Magnetic (cig.plug), 2 Bolt Low Profile, Single Bolt Low Profile

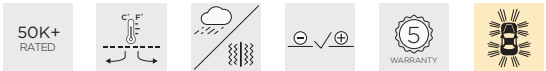

Mounting Methods

WLD-6B074-00 4 LED WORK LAMP

- GENERAL SPECIFICATIONS**
- Operating Voltage: 11 ~ 70 Vdc
 - Max Current Draw: 2.2A @ 12.8Vdc - 1.2A @ 25.6Vdc - 0.5A @ 60Vdc
 - LED Count: 4 | LED Output: 3200lm
 - Dimensions: 4.9" L X 5.1"H (With Bracket) X 3.2"D
 - Certificates: EMC, IP68
 - Mounts: U Bracket / Bayonet

FEATURES

BENEFITS

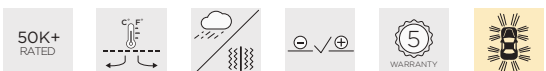

- Multi-voltage input
- Heavy-duty, powder-coated, die-cast aluminum housing
- Wide flood beam
- Waterproof Deutsch™ brand connectors

WLE-6B076-00 6 LED WORK LAMP

- General Specifications**
- Operating Voltage: 11 ~ 70 Vdc
 - Max Current Draw: 3.6A @ 12.8Vdc - 1.8A @ 25.6Vdc - 0.8A @ 60Vdc
 - LED Count: 6 | LED Output: 4800lm
 - Dimensions: 6.1" L X 6.9"H (With Bracket) X 3.2"D
 - Certificates: EMC, IP68
 - Mounts: U Bracket / Bayonet

FEATURES

BENEFITS

- Multi-voltage input
- Heavy-duty, powder-coated, die-cast aluminum housing
- Wide flood beam
- Waterproof Deutsch™ brand connectors

WLC-506FB-D7 6 LED WORK LAMP

- GENERAL SPECIFICATIONS**
- Operating Voltage: 10 ~ 70 Vdc | Max Current Draw: 2A @ 12.8Vdc - 0.9A @ 25.6Vdc
 - LED Count: 6 | LED Output: 1900lm
 - Dimensions: 4.6" L X 5.6"H (With Bracket) X 2.6"D
 - Certificates: EMC, IP67
 - Mounts: U Bracket / Bayonet

- FEATURES**
- 50K+
RATED
- BENEFITS**
- Multi-voltage input
 - Heavy-duty, powder-coated, die-cast aluminum housing
 - Wide flood beam

WLB-506FB-D7 6 LED WORK LAMP

- GENERAL SPECIFICATIONS**
- Operating Voltage: 10 ~ 70 Vdc | Max Current Draw: 2A @ 12.8Vdc - 0.9A @ 25.6Vdc
 - LED Count: 6 | LED Output: 1900lm
 - Dimensions: Diameter: 4.6" - Height W/ Bracket: 5.7" - Depth: 2.6"
 - Certificates: EMC, IP67
 - Mounts: U Bracket / Bayonet

- FEATURES**
- 50K+
RATED
- BENEFITS**
- Multi-voltage input
 - Heavy-duty, powder-coated, die-cast aluminum housing
 - Wide flood beam

WLG-1B051-00 4 LED WORK LAMP

- GENERAL SPECIFICATIONS**
- Operating Voltage: 10 ~ 70 Vdc | Max Current Draw: 1.2A @ 9Vdc - 0.2A @ 50Vdc
 - LED Count: 4 | LED Output: 900lm
 - Dimensions: Diameter: 3.78" - Height W/ Bracket: 4.65" - Depth: 2.9"
 - Certificates: EMC, IP68
 - Mounts: U Bracket / Bayonet

- FEATURES**
- 50K+
RATED
- BENEFITS**
- Multi-voltage input
 - Heavy-duty, powder-coated, die-cast aluminum housing
 - Wide flood beam

SL157 4 LED COMPARTMENT / SCENE LIGHT

- GENERAL SPECIFICATIONS**
- Operating Voltage: 12~24Vdc
 - Max Current Draw: 1.2a @ 12vDC - 0.6a @ 24Vdc
 - LED Count: 4
 - Dimensions: 7.22"L x 1.68"H x 0.87"D
 - Certificates: CISPR 25, ECE R10

- FEATURES**
- 50K+
RATED
- BENEFITS**
- Compact design fits in tight spaces
 - Bezels: Black included with each unit, white, chrome and red sold separately
 - Heavy-duty die cast aluminum base promotes efficient

NEW

LIGHT UP THE CARGO AREA OF ANY SUV!

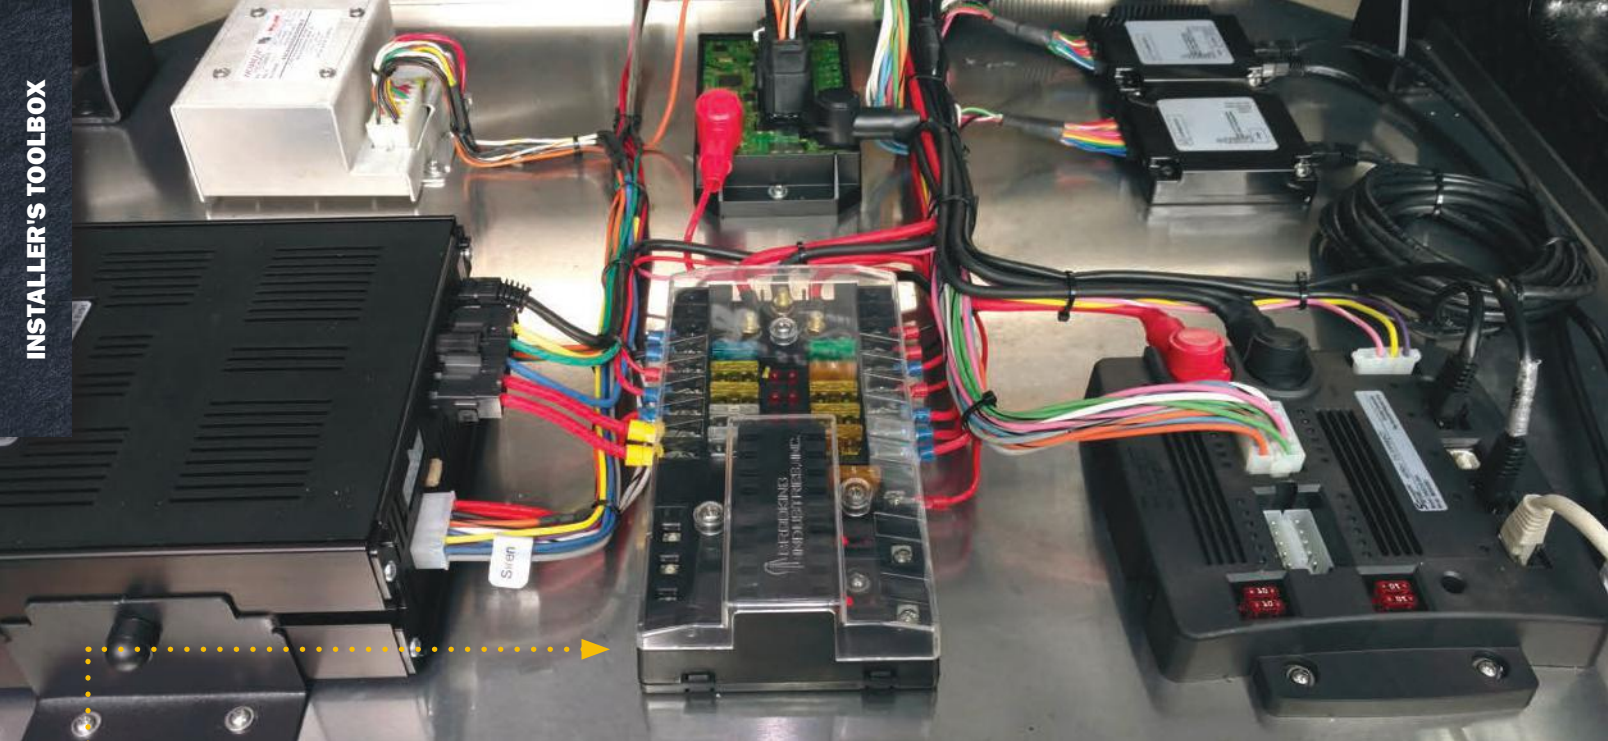

SL209 6 LED SCENE LIGHT

- GENERAL SPECIFICATIONS**
- Operating Voltage: 12~24Vdc
 - Max. Current Draw: 1.12A @12Vdc - 0.56A @ 24Vdc
 - LED Count: 6
 - LED Output: 1730lm
 - Dimensions: 8.93"W x 2.04"H x 2.44"D
 - Certificates: CISPR 25 Class 3, IPX7, ECE R10

- FEATURES**
- 50K+
RATED
- BENEFITS**
- Curved design maximizes output coverage
 - Heavy-duty die cast aluminum base promotes efficient heat dissipation
 - Also available with white base

NEW

POWER DISTRIBUTION PANEL

PDP-13 POWER DISTRIBUTION PANEL

- FEATURES**
- Maximum Load (panel): 100 AMP
 - Maximum Load (per circuit): 30A
 - Operating Voltage: 12V DC
 - 5 Battery Power Circuits
 - 5 Ignition Power Circuits
 - 3 Timed Circuits
 - Timer Presets - .5 hr, 1 hr, 2hrs, 4hrs
 - 8 Ground Studs
 - Fuse Indicator LED - turns on when there is an open circuit or blown fuse
 - Timed Circuit LED - LED flashes during power shut-off countdown

Warranty: 3 years

- BENEFITS**
- Simplifies wiring of aftermarket electrical products
 - Provides dedicated circuits for aftermarket equipment, eliminating unreliable and unsafe bundled connections, loose grounds, etc.
 - More efficient diagnostics:
 - LED indicators on each fuse
 - LED indicators on each fuse illuminate to identify the faulty circuit
 - Clear poly cover protects connections and allows for labeling of circuits (labels not included)

Submit your logo for private labeling. Minimums apply.

BR-RFT

- FEATURES**
- Solid -State 6 way fuse panel with 6 pre-wired 20A relays on a potted circuit board
 - Boosts the amp load capability of the 995 or 997 to 20A per switch. Machine-crimped ends on both input and output ease installation, and a capped, 40A in-line fuse provides added protection for accessories.

THIS UNIT CAN BE USED TO INCREASE THE AMP LOAD CAPABILITY OF ANY SWITCHING DEVICE.

FUSE PANELS

FB**-PLC FUSE PANEL W/ LED FUSE STATUS INDICATORS

- FEATURES**
- Available in 6 & 10 gang
 - Red LED's indicate blown fuse
 - Clear, poly snap-on cover for extra protection against water spray, dust and debris
 - 1/4" stud for power feed
 - .250" male quick-disconnect terminals

- GENERAL SPECIFICATIONS**
- Operating voltage: 10 ~ 32 Vdc
 - Max 30A per circuit / 100A per panel

FB**-GPC FUSE PANEL WITH GROUND PAD

- FEATURES**
- Available in 8, 10 & 12 gang
 - Easy wiring with 1/4" quick connect branch circuit terminal and stud common ground or 1/4" quick connect if preferred
 - Clear poly snap-on cover for extra protection against water spray, dust and debris
 - 1/4" stud for power feed
 - .250" male quick-disconnect terminals

CIRCUIT BREAKERS

CB-50, 100 & 150 MANUAL RESET CIRCUIT BREAKERS

- FEATURES**
- Available in 50A, 100A & 150A
 - Manual "trip" button allows the user to manually trip the breaker
 - Indicator lever provides clear visual indication of a tripped condition saving valuable time when troubleshooting an open circuit
 - Rubber stud covers

- GENERAL SPECIFICATIONS**
- Operating temperature: -25° F to 180° F.
 - Storage temperature: -30° F to 300° F.
 - Splash and dust-proof.
 - Stud size 1/4", 28 threads per inch.

BACK-UP ALARM

BR-102DBA BACKUP ALARM

- GENERAL SPECIFICATIONS**
- Max Power: 15W
 - Operating Voltage: 12~80Vdc
 - Current: 300mA
 - dB/M: 102 Db
 - Material: Nylon
 - Frequency: 1.4KHz
 - Cycle: 80 ± 5/min
 - Dimensions: 4.1"L x 1.8"D x 1.97"H

TIMERS

BR-T240A DUAL 40A TIMER

FEATURES

- Provides power to accessories when ignition is in the OFF position
- Two independent 40A timers in one compact housing
- User settable timed increments (30min, 1 hr, 2 hr, 4 hr)
- User friendly - free of complicated programming
- Rugged ABS housing with screw hole mounts
- Not intended for use in areas subjected to extreme weather conditions (heat, water). Interior mount only

BR-T80A 80A TIMER

FEATURES

- Provides power to accessories when ignition is in the OFF position
- 80A capable
- User settable timed increments (30min, 1 hr, 2 hr, 4 hr)
- User friendly - free of complicated programming
- Rugged ABS housing with screw hole mounts
- Not intended for use in areas subjected to extreme weather conditions (heat, water) Interior mount only

WIRE HARNESSES

CUSTOM MADE TO YOUR SPECIFICATIONS

Brooking develops custom wire harnesses for entities all over the country. Removing an installer from his/her primary task (installing) is expensive, and inefficient. Simply provide a sample of an oft-used harness and leave the rest to us. From in-line circuit breakers to manufacturer specific plugs, no harness is outside our range of capabilities.

CT-CHTD HARNESS

While most harnesses are unique to the end user, some aren't. This front main wiring harness is designed for the Chevrolet Tahoe, complete with GM Delphi connector, and 4 labeled wire leads (speaker (2), front (1), AUX (1) & ground).

TWY-LIGHT2

NEW

TWY (TAKE WITH YOU) VERSATILE CLIP-ON ILLUMINATION DEVICE

FEATURES GENERAL SPECIFICATIONS

- (20) flashing LED's
- New magnetic charging port (replaces mini USB)
- New front / top facing LED's added, improving forward facing output
- (1) steady white LED on one end
- 360 degree rotating clip. Clip it on just about anything from clothing, K9, hat, traffic cone, etc.
- 8 hours constant run time on a full charge
- Water resistant
- Colors: Amber, Blue, Red, White and most combinations

OVERHEAD LED DOME LIGHT

PL-801 OVERHEAD / COMPARTMENT LIGHT

FEATURES

- Slim, compact design
- Available in white, or red/white
- Red mode is less visible from outside the vehicle, aiding in officer / driver safety while also reducing eye fatigue
- Glow in the dark, silicon on/off/color cycle button
- Dimensions: 3" Diameter x .28"H

Part Number:
PL-810W (White)
PL-801RW (Red / White)

OUTLET BOXES

Promote your business, add your logo / company information with reasonable minimums. Contact a Brooking associate for more details.

BR-930 OUTLET BOX (12V)

GENERAL SPECIFICATIONS

- ABS plastic housing / case
- 15A per outlet
- 4.5"L x 1.5"H x 2"D

FEATURES

- Three 12V DC receptacles
- Lighted switch turns all 3 receptacles on/off
- Attached rubber covers help keep receptacles free and clear of debris and/or liquids
- Rugged ABS housing with screw hole mounts
- Receptacles protected by a 15A in-line fuse
- 3' wire harness
- Mounting screws included

Warranty: 3-year

BR-930W OUTLET BOX (12V)

GENERAL SPECIFICATIONS

- ABS plastic housing / case
- 15A per outlet
- 6"L x 1.5"H x 2.25"D (length includes mounting flanges, depth includes circuit breaker)

FEATURES

- 3 12V DC receptacles
- Attached rubber covers help keep receptacles free and clear of debris and/or liquids
- Receptacles protected by a 15A auto-resetting circuit breaker
- 3' wire harness
- Mounting screws included

Warranty: 3-year

BR-930-USB OUTLET BOX (12V)

GENERAL SPECIFICATIONS

- ABS plastic housing / case
- 15A per outlet | 2.1A USB ports
- 4.5"L x 1.5"H x 2"D

FEATURES

- Two 12V DC receptacles and two USB ports
- Lighted switch turns all 3 receptacles on/off
- Attached rubber covers help keep receptacles free and clear of debris and/or liquids
- Rugged ABS housing with screw hole mounts
- Receptacles protected by a 15A in-line fuse
- 3' wire harness
- Mounting screws included

Warranty: 3-year

BR-930WP OUTLET BOX (12V)

GENERAL SPECIFICATIONS

- ABS plastic housing / case
- 15A per outlet
- 6"L x 1.5"H x 2.25"D (length includes mounting flanges)

FEATURES

- Three 12V DC receptacles
- Powered via fused (15A) cigar plug
- Attached rubber covers help keep receptacles free and clear of debris and/or liquids
- 3' cigar plug cord
- Mounting screws included

Warranty: 3-year

OP-5302 USB OUTLET PLATE (12V)

FEATURES

- Two USB ports
- Three 12V receptacles
- Receptacles / ports protected by 15A in-line fuse
- Attached rubber covers keep receptacles clear of liquids and debris
- Powder-coated steel plate
- Dimensions: 8.56"L x 2"H

Warranty: 3-year

OP-40 OUTLET PLATE (12V)

FEATURES

- Four 12Vdc receptacles
- Receptacles protected by 15A in-line fuse
- Attached rubber covers keep receptacles clear of liquids and debris
- Powder-coated steel plate
- Dimensions: 8.56"L x 2"H

Warranty: 3-year

NEW

HEAVY DUTY BATTERY JUMP START KIT

WHNS-JS HEAVY DUTY BATTERY JUMP START KIT

This isn't your big box retail store jump kit. Our 12' heavy duty cables are capable of carrying up to a 600A load. Choose a stainless steel plate (pictured) for surface / flush mount, or black powder coated L bracket for push bumper, under center tray mount, trunk mount, etc. Connections from plug to battery protected from elements via heavy duty heat shrink tubing. Spring loaded door / cover protects receptacle from elements and road conditioning substances.

Brooking Industries, Inc. is a family owned business devoted to providing quality products and personable service to installers and up-fitters across the globe. The original incarnation of Brooking was known as Lionheart Public Safety, formed in 1986, specializing in soft goods, uniform accessories and simple switching solutions for public safety professionals. Trico Industries then followed, producing vacuum formed and blow molded plastic products such as passenger seat organizers and vehicle specific prisoner transport equipment. As our offering grew, so did our customer base, necessitating the creation and incorporation of Brooking Industries, Inc. in 1997.

With all entities under the same umbrella, Brooking began expanding its offering to include soft goods, prisoner transport equipment, analog and digital switching devices, custom wire harnesses and other emergency vehicle accessories. Over time, our rapidly growing customer base expressed a need for an affordable, reliable line of emergency vehicle lighting.

In 2008, Brooking partnered with a reputable lighting manufacturer already producing high quality products for some of the industry's top manufacturers.

A decade later, the Brooking lighting line has become widely recognized as a superior alternative to other higher priced, less reliable products. Our no-hassle warranty policy meets and exceeds industry norms, a testament to our faith in our products.

How is Brooking able to offer such competitive pricing, and the fastest lead times in the industry? Through low overhead, achieved partially through our working relationships with reputable contracted manufacturers, both domestic and international. Removing the costs associated with expensive machinery allows us to extend substantial savings to our partners. Our 12,000 sq. ft. stocking warehouse / assembly center facilitates quick delivery, with orders for finished goods typically shipping within 48 hours, while turn-around time for orders requiring assembly is far shorter than what most are accustomed to.

If its high quality, affordable products that ship quickly, accompanied by personable customer service that you're looking for, look no further. By teaming up with Brooking Industries, you'll find out what true, mutually beneficial partnership is all about. Welcome aboard!
